

HOW TO APPLY

Complete the application on-line or fax it to 888-337-3431

- 1 . The “Approval”** with the terms and options, will be sent to the lessee and the vendor. The terms can be reviewed with a CEH agent.
- 2 . Documents** will be sent to the lessee for signatures and initial advanced payments. The documents are returned to CEH Leasing in our pre-paid Fed Ex package.
- 3 . Vendor delivers equipment.** The lease payments will begin approximately 30 days after installation of your equipment.

WHAT ELSE SHOULD I KNOW?

Once your equipment has been installed, your vendor will provide CEH with an invoice in the amount of your lease contract. The invoice will include serial numbers for all of the hardware and any software modules.

Our office will make a “Verbal Acceptance” phone call to verify that all of your equipment has been delivered. Then the vendor is paid and your lease payments begin.

LEASING IS SMART BUSINESS

You'll probably want to purchase new POS equipment for your business to increase productivity or add greater control to your operation. Here are 10 reasons why leasing your POS equipment makes good business sense:

1. Lowers Costs. The alternatives of cash, bank loans, or installment purchases can cost more and require higher deposits. Purchases of equipment through leasing have positive effects on cash flows at lower costs. GET MORE equipment for less!

2. Preserves lines of Credit. Leasing offers "off the book" financing for business owners. The equipment debt does not flow back to the owner's personal debt.

3. Tax Advantages. You can choose a lease structure to best meet your business tax plans. Businesses can fully expense or capitalize leasing purchases.

GET MORE VALUE FROM YOUR EQUIPMENT

4. Hedges Technology. CEH Leasing can provide for equipment upgrades with

your equipment vendor. Your business can stay ahead of the "Tech Curve" with software enhancements and hardware add-ons.

5. Vendor Maintenance. CEH Leasing will include your vendor's maintenance programs or service contracts in your lease payment.

PAYMENT EXAMPLE

\$10,000 NO ADVANCE NO DOC FEE

<i>36mo</i>	<i>48mo</i>	<i>60mo</i>
<i>\$394</i>	<i>\$322</i>	<i>\$292</i>

EASY PAYMENTS

6. Vendor Deposits Paid. Our Advanced Funding Program pays your equipment vendor the required deposits necessary to order your equipment.

7. Payment Flexibility. Lease payments can be customized to meet your business cash flow cycles. Skip leases, differed payments, or seasonal leases are offered to qualified lessees. Ask your leasing agent to create a plan for you.

8. Automatic Payments. Lease payments can be deducted through ACH.

ACCOUNTING BENEFITS

Equipment leasing improves returns on assets. Return on assets (investments or equity) frequently is the primary standard for profit evaluations. Leasing offers accounting benefits that have greater positive effects on returns as compared to ownership.

EASY APPLICATION & APPROVAL PROCESS

9. Equipment leasing is a simple financial transaction. Most transactions only require a short one-page application and are approved within hours. Lease contracts are simple and have fewer credit requirements.

10. Leasing can provide needed capital for businesses that may not qualify for added lines of bank credit. Traditional bank loans may NOT be available to restricted industries such as the hospitality and retail industries.
