

RMS Rental Module

Rent directly from the POS Screen

- Rent items with full or partial deposit, or make the payment due at time of return
- Charge refundable security or other deposits for full or partial credit on rental return
- Rental items support having set-up time, item messages, tag along items or fees, pictures and specifications
- Supports renting multiple quantities of the same item during one transaction
- Pro Rated Rentals
- Make use of serialized rental items to automatically or manually track run-time hours for maintenance purposes, store comments, etc.

Make reservations

- Reserve items for future time periods
- Make changes to reservations before pickup
- View availability of all rental items for any time period
- Automatic conflict checking prevents from creating conflicting reservations/rentals
- Reserve items with variable deposit payment at the time of reservation

Easy to configure

- Create unlimited rental time periods, each with separate grace period, late fees, deposits, etc.
- Set up cost of goods, damage waivers for rentals and reservations
- Allow pro-rating of rentals, allow or deny renting for customers with overdue rentals and more...

Rental contract

- Includes customer information, drivers license, and car license
- Terms and Signature Required terms (integrates with Signature Capture)
- Compatible with Just Ask Rental forms for True Value stores
